

I have just started listening to satellite radio in my new car. I must say that I am thoroughly enjoying the variety that satellite provides and I am so glad that I decided to purchase this option for my new car. I do not believe that the FCC should stop XM from providing instant traffic and weather to XM subscribers. We pay for the service and I do respectfully urge the FCC to reject the NAB's petition 04-160.

Sincerely,  
Beth Gunn
